PROFILE SUMMARY

Seeking a role in a professional and vibrant environment where I can utilize my full potential and contribute to the growth of the organization through sincerity and dedication. Eager to take on new opportunities to achieve impactful results.

TECHNICAL SKILLS

Languages: Python, Kotlin, SQL, JavaScript
Backend: Django, Flask, RESTful APIs, JWT
Frontend: React.js, React Native, HTML and CSS
Tools: Git/GitHub, VS Code, Android Studio, Postman
AI & ML Libraries: Pandas, NumPy, Scikit-Learn, TensorFlow
Databases: PostgreSQL, MySQL, MongoDB

WORK EXPERIENCE

Rivalkart Logistics Pvt Ltd | Software Engineer | Remote | Live Demo | August 2026-Present

- Developing **RideBasket**, a ride-booking and logistics platform across **3 clients** (Customer Android, Driver Android, and React.js Admin Dashboard) using Kotlin, Jetpack Compose, and React.js to serve **1,000+** active users.
- Building a centralized Django REST backend with **50+** endpoints for auth, ride booking, map-based tracking, wallet, SOS, and OTP-verified starts, reducing average ride booking time by **75%**.
- Delivering admin workflows for live-ride monitoring, KYC, payments, and dynamic pricing, **automating 83%** of manual operations and unifying end-to-end ride management for **999+** daily drivers.

INTERNSHIP EXPERIENCE

White Soft Info | Software Developer Trainee | Remote | Live Demo | March 2026-July 2026

- Engineered responsive WordPress solutions using CPTs, Elementor, WooCommerce, ShopLentor, and Orderable, automating workflows and reducing manual effort by up to 80% while improving ordering efficiency by 65%.

PROJECTS

AI-Powered Document Analyzer | Live Demo | May 2026-July 2026

- Engineered a RAG Q&A app (FAISS + Groq LLM) extracting text from 5+ multi-format files, reducing manual analysis time by 91.8%.

AI-Travel Guide| Live Demo | Apr 2026-May 2026

- Developed a Flask & Groq LLM guide generating 10 contextual itineraries, improving trip planning efficiency by 76.6%.

TaskCare360 App | Live Demo | Jan 2026-Mar 2026

- Architected a React Native & Flask app with offline capabilities, seamlessly syncing 50,000 step records daily for 1,000+ users with 99.99% accuracy.

Budget Wisely | Live Demo | Aug 2025-Dec 2025

- Designed a full-stack expense tracker handling 100+ transactions and interactive visualizations, boosting savings tracking accuracy by 95%.

AI-Powered Mutual Fund Recommendation | Live Demo | Jan 2025-Jul 2025

- Implemented a Django recommender (TF-IDF + cosine similarity) analyzing 300+ live market data points to achieve 99.9% recommendation accuracy.

CERTIFICATIONS & ACHIEVEMENTS

- Earned the **Certified Python Programming Associate** credential from **CertifyCore**. | **Certificate**
- Honed Python problem-solving skills by completing 100+ HackerRank challenges. | **Profile**

EDUCATION

Brainware University | Kolkata, West Bengal
CGPA: 8.73 / 10 (Equivalent: 82.23%)
