PROFILE SUMMARY

B.Tech Software Engineer proficient in Python (Django/Flask), WordPress, React.js, and REST APIs, specialising in scalable applications, DSA, and AI/ML. Expert in database design (PostgreSQL/MongoDB), AWS deployment, and architecting complex WordPress/WooCommerce ecosystems using Elementor, ShopLentor, and Orderable. Proven track record of optimising systems to achieve 99% uptime and an 87% reduction in latency through advanced development.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript
Backend: Django, Flask, RESTful APIs, JWT, OAuth
Frontend: WordPress, Elementor, ShopLentor, WooCommerce, React.js, React Native, HTML and CSS
Tools: Git/GitHub, CI/CD, Docker, AWS, Postman
AI & ML Libraries: Pandas, NumPy, Scikit-Learn, TensorFlow
Databases: PostgreSQL, MySQL, MongoDB, SQLite
Testing: PyTest, Unit Testing

WORK EXPERIENCE

White Soft Info | Software Developer Trainee | Remote | Live Demo | March 2026-Present

- Engineered custom post types and secure shortcodes in WordPress, automating backend booking workflows and reducing manual data entry by 80%.
- Built responsive digital architecture using Elementor and custom theme templates, achieving 100% mobile compatibility across all breakpoints.
- Automated product workflows via WooCommerce and ShopLentor, cutting manual synchronisation overhead by 75%.
- Optimised custom checkout modules and Orderable integrations, boosting ordering efficiency by 65%.
- Developed single-page web structures with custom footers and interactive features, unifying multi-site brand ecosystems into a single platform.

PROJECTS

AI-Powered Document Analyser | Live Demo | Jun 2025-Aug 2025

- Implemented **Hybrid RAG architecture** using **FAISS** and **Groq LPUs**, achieving **100%** context retrieval accuracy.
- Accelerated data extraction by integrating **Llama 3.3** and **Sentence Transformers**, cutting manual analysis by **95%**.
- Architected a secure **Django backend** with **session-based storage** and **CSRF protection** to ensure **99.97%** data integrity.

AI-Powered Mutual Fund Recommender | Live Demo | Aug 2024-May 2025

- Erected a Django **SIP** and **portfolio** platform using **TF-IDF similarity**, achieving **95% accuracy** for **500+** users.
- Optimised performance to **99% uptime** and **87% lower latency** by integrating **IndianAPI.in** with **3-layer caching**.
- Fortified security and cut manual calculation time by **89%** via **OTP verification**, **hashing**, and **session management**.

CERTIFICATIONS & ACHIEVEMENTS

- Secured All India Rank (AIR) **39,493** in NCAT 2025, placing in the **Top 3%** nationwide. | **Certificate**
- Earned the **Certified Python Programming Associate** credential from **CertifyCore**. | **Certificate**
- Honed Python problem-solving skills by completing 100+ HackerRank challenges. | **Profile**

EDUCATION

Brainware University | Bachelor of Technology in Computer Science & Engineering (AI & ML) | Kolkata, West Bengal | **Aug 2021-Jul 2025**

CGPA: **8.73** (Equivalent Percentage: **82.23%**)

- Relevant Coursework: **Data Structures and Algorithms, OS, DBMS, Object-Oriented Programming, ML, Software Engineering**.
