PROFILE SUMMARY

Software Engineer building production-grade ride-booking and logistics platforms with Kotlin, React.js, Python, and Django. Developing RideBasket across Customer and Driver Android apps and a React.js Admin Dashboard, backed by unified Django REST APIs—delivering end-to-end features across booking, real-time tracking, payments, KYC, and operations.

TECHNICAL SKILLS

Languages: Python, Kotlin, SQL, JavaScript
Backend: Django, Flask, RESTful APIs, JWT
Frontend: React.js, React Native, HTML and CSS
Tools: Git/GitHub, VS Code, Android Studio, Postman
AI & ML Libraries: Pandas, NumPy, Scikit-Learn, TensorFlow
Databases: PostgreSQL, MySQL, MongoDB

WORK EXPERIENCE

Rivalkart Logistics Pvt Ltd | Software Engineer | Remote | Live Demo | August 2026-Present

- Developing RideBasket, a ride-booking and logistics platform across three clients — Customer Android, Driver Android, and React.js Admin Dashboard — using Kotlin, Jetpack Compose, and React.js.
- Building a centralised Django REST backend for auth, ride booking, map-based pickup/drop selection, tracking, trip history, wallet, SOS, OTP-verified ride start, document uploads, and driver payouts.
- Delivering admin workflows for live-ride monitoring, customer/driver management, KYC verification, payments, dynamic pricing, and reporting — unifying end-to-end ride operations.

INTERNSHIP EXPERIENCE

White Soft Info | Software Developer Trainee | Remote | Live Demo | March 2026-July 2026

- Engineered responsive WordPress solutions using CPTs, Elementor, WooCommerce, ShopLentor, and Orderable, automating workflows and reducing manual effort by up to 80% while improving ordering efficiency by 65%.

PROJECTS

AI-Powered Document Analyzer | Live Demo | May 2026-July 2026

- Built a **RAG** document Q&A app using **FAISS** embeddings and **Groq LLM** for multi-format files.

AI-Travel Guide| Live Demo | Apr 2026-May 2026

- Built a **Flask** & **Groq LLM** conversational travel guide providing contextual Telangana itineraries and tips.

TaskCare360 App | Live Demo | Jan 2026-Mar 2026

- Built a **React Native** & **Flask task** and **fitness** app with offline step sync and push notifications.

Budget Wisely | Live Demo | Aug 2025-Dec 2025

- Created a full-stack expense tracker with budget analytics and interactive data visualisations

AI-Powered Mutual Fund Recommendation | Live Demo | Jan 2025-Jul 2025

- Built a Django mutual fund recommender using TF-IDF and cosine similarity with live market data APIs.

CERTIFICATIONS & ACHIEVEMENTS

- Earned the **Certified Python Programming Associate** credential from **CertifyCore**. | **Certificate**
- Honed Python problem-solving skills by completing 100+ HackerRank challenges. | **Profile**

EDUCATION

Brainware University | Kolkata, West Bengal
CGPA: 8.73 / 10 (Equivalent: 82.23%)

- Relevant Coursework: **Software Engineering, DSA, OS, DBMS, OOP, AI, ML**
